

St Andrew's Church of England Primary School

KSI Knowledge Organiser - Term 4: Computing: Data & Information: Grouping Data

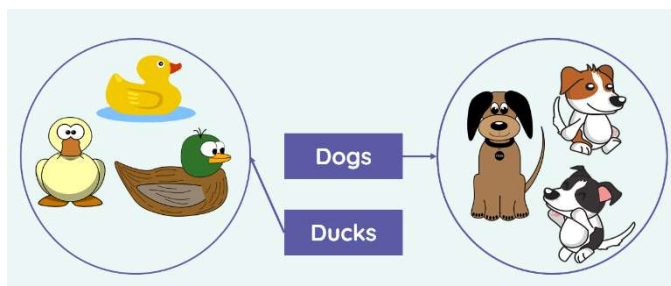

Glossary of key words:

Vocabulary	Definition
data	Facts, figures or other pieces of information that can be used to learn about something.
data set	A collection of related data.
label	A specific property used to describe an object.
object	Something that can be named and has other properties that can be labelled.
output	The result of data processed by a computer.
property	A word or phrase that can be used to describe an object such as its colour or size.

End of unit outcomes:

- How to label objects.
- How to identify that objects can be counted.
- How to describe objects in different ways.
- How to count objects with the same properties.
- How to compare groups of objects.
- How to answer questions about groups of objects.

This unit's key ideas:

← Objects can be sorted into groups and labelled accordingly.

Objects can be described using different properties.
